

## By Dawns Early Light: A Novel

From Philip Shelby, the author of *Gatekeeper* (action-packed -- Chicago Tribune) who joined forces with Robert Ludlum to create the New York Times bestseller *The Cassandra Compact*, comes a new political thriller that ricochets across the world stage with relentless force. After she's blackballed by Wall Street for exposing a powerful bankers corruption, Sloane Ryder is recruited by a covert government agency to hunt down moles and spies within the corridors of power. It seems to be the perfect job for the straight-shooting Sloane -- until a suspicious tip leads her to uncover a shocking conspiracy wrought by some of the most prominent figures in government. Their aim: assassinate the first woman president of the United States, whose policies could endanger their shadowy activities. As Sloane frantically pieces together a series of strange but seemingly unrelated events, the trail leads her to the Handyman, an enigmatic killer-for-hire whose reputation is built on his unerring tenacity. Now, she finds herself caught in a deadly game of high-stakes international intrigue, in which the wrong move may be her last.
