

## Annual Editions: Archaeology, 10/e

The Annual Editions series is designed to provide convenient, inexpensive access to a wide range of current articles from some of the most respected magazines, newspapers, and journals published today. Annual Editions are updated on a regular basis through a continuous monitoring of over 300 periodical sources. The articles selected are authored by prominent scholars, researchers, and commentators writing for a general audience. Annual Editions volumes have a number of organizational features designed to make them especially valuable for classroom use: a general introduction; an annotated table of contents; a topic guide; an annotated listing of supporting World Wide Web sites; Learning Outcomes and a brief overview at the beginning of each unit; and a Critical Thinking section at the end of each article. Each volume also offers an online Instructors Resource Guide with testing materials. Using Annual Editions in the Classroom is a general guide that provides a number of interesting and functional ideas for using Annual Editions readers in the classroom.
